TANNER'S SPLURGE.

HE TRIES TO ALLAY PUBLIC FEEL-
ING ABOUT HIS EXTRAVAGANCE,
SAYS HIS DRAFTS ARE NOT UNUSUAL.

WASHINGTON, May 21.—[Special.]—Commissioner Tanner says that the appropriation for pensions has not been overruled, and will not be, because the treasury will not pay drafts for which there is no appropriation, but he does not guarantee that the appropriation will be equal to his demands upon it. He has just done which has attracted attention, was to draw drafts for something over \$11,000,000 to be placed to the credit of the pension agents so that they can draw their checks upon it for the June pensions. This money has not been spent. It simply has been made subject to the orders of the disbursing officers, as is usually done at this season, and the amount is not very unusual. The commissioner's draft covers nearly all there is left of the current appropriation, only a small portion of the available funds being left in the treasury for an emergency. But when the commissioner was asked whether the appropriation was more than the outstanding pension certificates, he replied that he could not tell about that. It was not easy to know exactly how much was at any time due on certificates when the certificates were being issued daily. The commissioner learned last night that when General Black prepared his estimates for the current fiscal year, in which he asked \$70,000,000, his requisition clerk told him that he would need \$90,000,000. The general replied that \$78,000,000 was all that he should ask for.

"Then," said the clerk, "you will have to face a deficiency."
"That makes no difference," said General Black. "I shall only look for seventy-eight millions."
Seventy-eight millions was the appropriation, exclusive of the appropriation for the expenses of the office; and if the requisition clerk was right, the end of the fiscal year will show a deficiency

of about \$12,000,000. This means that a great many of the pensioners will find, when they try to draw their June pensions, that there is no money to pay them.

CONGRESS TO CONVENE.
Speaking at a dinner to the senator Cul-
um and there seemed to be no doubt that con-
gress would be called together in October in-
stead of waiting until December. This would
be necessary to prevent a long session during
next summer, as there was more work for the
first session of the fifty-first congress than
could be disposed of in an ordinary session. He
said that he thought the republican party
would dispose of the tariff matter at the first
session. All the congressmen and the president
have an appreciation of the extent and im-
portance of the work before them.

THE OFFICE HUNTERS.
Judge McElroy, of Alabama, returned here
today and will stay until the Alabama ap-
pointments are made. He will, it is believed,
be able to control the greater part of the ap-
pointments in that state. Judge Craig will
arrive tomorrow to take up the fight for the
district attorneyship. It is to be a lively
contest between him and Lewis E. Parsons, Jr.
Colonel Buck is expected here tonight or in
the morning. The new collector of internal
revenue will be appointed now in a few days,
though there is no telling who it will be.
Arnold is making a hard fight to have his
commission signed by Mr. Lynch. In a few
days he will be in the city. He is a friend
of the late Mr. Arnold in the south.
EX-REPRESENTATIVE LYNCH,
the newly appointed fourth auditor of the
treasury, took charge of his office today.
There was no show of reserve on the part of
the clerks and subordinates. In a few days
coming a colored man as chief. General
Shelley, before retiring, assembled the entire
force of the office in his room and intro-
duced them to Mr. Lynch. He then made a
short address, thanking them for their cour-
tesy during his term and speaking favorably
of his successor, Mr. Lynch. In a brief
speech, that he hoped and believed his re-
lationship with the office would be pleasant.
He could wish no more than that there should
be the same cordiality between the clerks and
himself as existed between them and General
Shelley. General Shelley will open a law
office here and not return to his former home
in Alabama.

PRESIDENT DIAZ MAY COME.
The interview of the Atlanta Commissioners
with the President.

CITY OF MEXICO, May 21.—[Special.]—The
special committee from Atlanta, in the in-
terest of the Piedmont exposition, arrived in
this city last night. They were at once called upon
by the American minister here, who arranged
an interview with President Diaz today.

The interview took place at the private pal-
ace of the president. The committee, headed
by Mr. Diaz, remembered several of the gen-
tlemen from his visit to Atlanta several years
ago. After listening to the invitation, and
hearing all about the proposed Piedmont ex-
position, the president said it would be im-
possible for one in his position to make a po-
sitive engagement so long in advance. He
highly appreciated the courtesy extended by
the committee, and hoped he might find it
possible to come.

The commissioners go to Orizaba and Vera
Cruz tomorrow.

BIG FEES IN PROSPECT.

Forty North Carolina Railroads Summoned
to Appear.
RALEIGH, N. C., May 21.—[Special.]—The
summons of the forty North Carolina rail-
roads for Dr. W. T. Hodge, of Wake county, enter-
ing complaint in the office of the clerk of the
superior court, in this city, against all the
railroad companies in the state, for failure to
report their business, as required by law. The
code requires every railroad corporation to take
an annual report to the governor of their op-
erations, ending the last day of September, which
report is required to be verified by the oaths
of the officers and directors of the corporation.
The report must show the capital, debt, cost of
road and equipment, the character of the road's
business, the year in transportation, expenses of
maintenance, gross earnings, net earnings,
dividends, number of persons killed or in-
jured. If any such corporation shall neglect
to make the reports, it is provided that it shall
be liable to a penalty of five hundred dollars.
The report must be made to the governor, and
the governor may cause the same to be printed
and distributed to the public. The law is not
complied with by the corporations. He, therefore
makes complaint against them, and if he suc-
ceeds in establishing his charge, will receive
\$500 from each road. Some lawyers here say
Hodge's claim and prospects are strong. The
representatives of each road are summoned to
appear at the September term of Wake county
court, and answer the complaint.

THE FOREST CITY SENSATION.

A Night Attack Puts the Town in a Tur-
moil.

FOREST CITY, Ark., May 21.—[Special.]—
Just about 9:30 o'clock, eight shots sounded
out from the north end of the town, the point
from where the attack on the Forest City Jail
is reported. In a moment the reserve was
called together, the order to "fall in" was
given, and every man stood to his gun. There
was another shot, another and a scattering
fire. The excitement was at fever heat.
Guns were cocked, pistols looked over, and
every now and then someone would cry out,
"Halt," and all would listen with an intent
silence of ear that was almost painful. Soon
the galloping of a horse was made out, grow-
ing louder and louder, and a minute later Las
Prewitt swung round into sight, panting with
"run, and yelling: "They are coming, boys,
seventy-five of 'em. They are right on us and
we have them all we have. Now you've got to
hurry if you want to save the pickets. I'm going

NFW COLLARS, May 21—(Special.)—Glenn Violett, in their cotton circular today, says: "future markets closed better than yesterday. High port 164 and New Orleans 142 points higher. New York says quiet, but firm. The Texas dispatch to the west says: 'The Galveston News report tomorrow crop condition the best on record at this date.' Our articles from elsewhere, however, report no such optimism. The cotton market is expected to suffer after the eighth of May—last year at weekly prior towns and the probable movement this year from the date to the first of September the latter receipts for the next few weeks will be about 100,000 bales, while the interior stocks will be about 100,000 bales larger than the seventeen months ago. Should the growing crop be late or short, the market will be affected. The market for cotton prices for summer months and in advance on cotton tender and later. Spots here are firm; sales in bales; adding 10¢. **GLENN & VIOLETT**

Contagious Blood Poison is the constitutional blood disease which has for several centuries been the scourge of mankind. Its annoying features and destructive results, and its slow and gradual progress, make it the most offensive and dangerous of all diseases. It is transmitted from one generation to the next, and even the third and fourth generations may be afflicted with the terrible scourge. It is never cured and thoroughly eradicated from the human body by any other remedy than Swift's Specific, and we further say that Swift's Specific has never been known to fail to make a permanent cure in any case when it has been taken before the disease has become so deeply seated as to render a cure impossible.

Swift's Specific entirely cured me of a severe case of blood poison which obstinately resisted and refused to be cured by any other remedy. I was afflicted with the disease for several years, and it was only after using Swift's Specific that I was cured. I suffered during most of this long time with ulcers, sores, and all sorts of the most offensive eruptions, and was for a long time practically an invalid. In less than thirty days I was cured, and I have since been able to do all the work of a man. I have never had a return of the disease, and I have been a healthy man ever since. This has been a happy day for me, and no sign of the old enemy.

FOREST PARK.

110—VACANT LOTS—110

I WILL SELL UPON THE PREMISES THURSDAY, May 23rd, 1889, at 10 o'clock a. m., one hundred and ten vacant lots as shown on plat.

This property is in lot No. 12, and bounded on the east by public road to Jonesboro, on the west by Central railroad and public road to East Point and Kenton. It is a beautiful and desirable tract of land, and is well adapted for a large number of purposes.

The most beautiful and comfortable passenger depot (just finished) between Atlanta and Savannah is shown on this plat. Accommodation passenger trains on Savannah and Montgomery railroads, and all trains on both roads will stop here.

The best paved road from Atlanta through West End and beyond this tract is now being paved and will be a splendid drive.

Every lot is a gem—beautifully and is shaded by young forest trees. The grounds were divided by a topographer and landscaper, and are well adapted for a large number of purposes.

The lot is staked off and numbered. A magnificent "barbecue lunch" will be served to those attending the sale, at the spring in "Park Avenue," on "Even Drive."

Those who desire beautiful lots for suburban homes, approached by vehicles on the best of paved roads, and with the convenience of a large accommodation passenger train, should not lose this opportunity.
